Accelerating Research with AI: How Datahunter is Helping Government Researchers Discover Data Faster

Results from the Datahunter Pilot with NRC

APPTION

Apption's extensive experience delivering tailored data, AI, & software solutions

- ✓ Canadian award-winning team, developing data & AI solutions for 20 years.
- ✓ Senior team focused on building data infrastructure for responsible analytics, & AI tools
- ✓ Secret-cleared, Responsible AI Supplier List, and Cybersecurity Certified Vendor (CSPV)

Existing methods and tools still struggle to pull useful data tables out of publications

🔍 Search in Google Scholar, etc

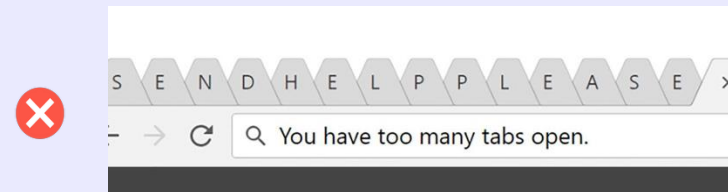

⚠️ Request a copy
(in some cases)

🕒 Manually review PDFs

📄 Transcribe relevant data

🔄 Repeat

The result:

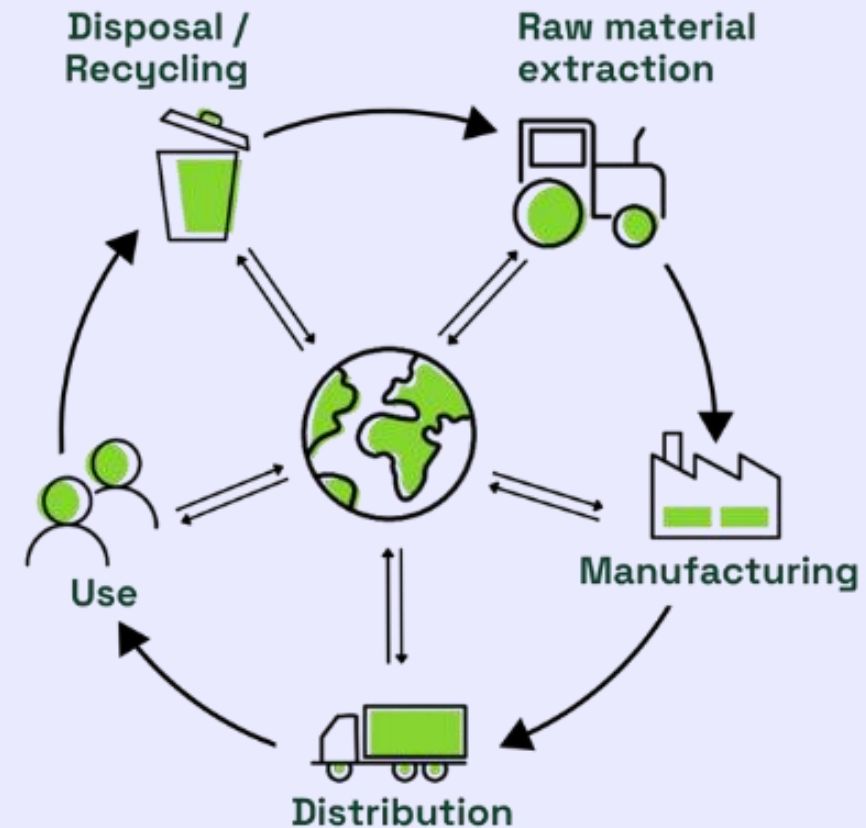

❌ Slow, inconsistent processes limit how many documents you can work with.

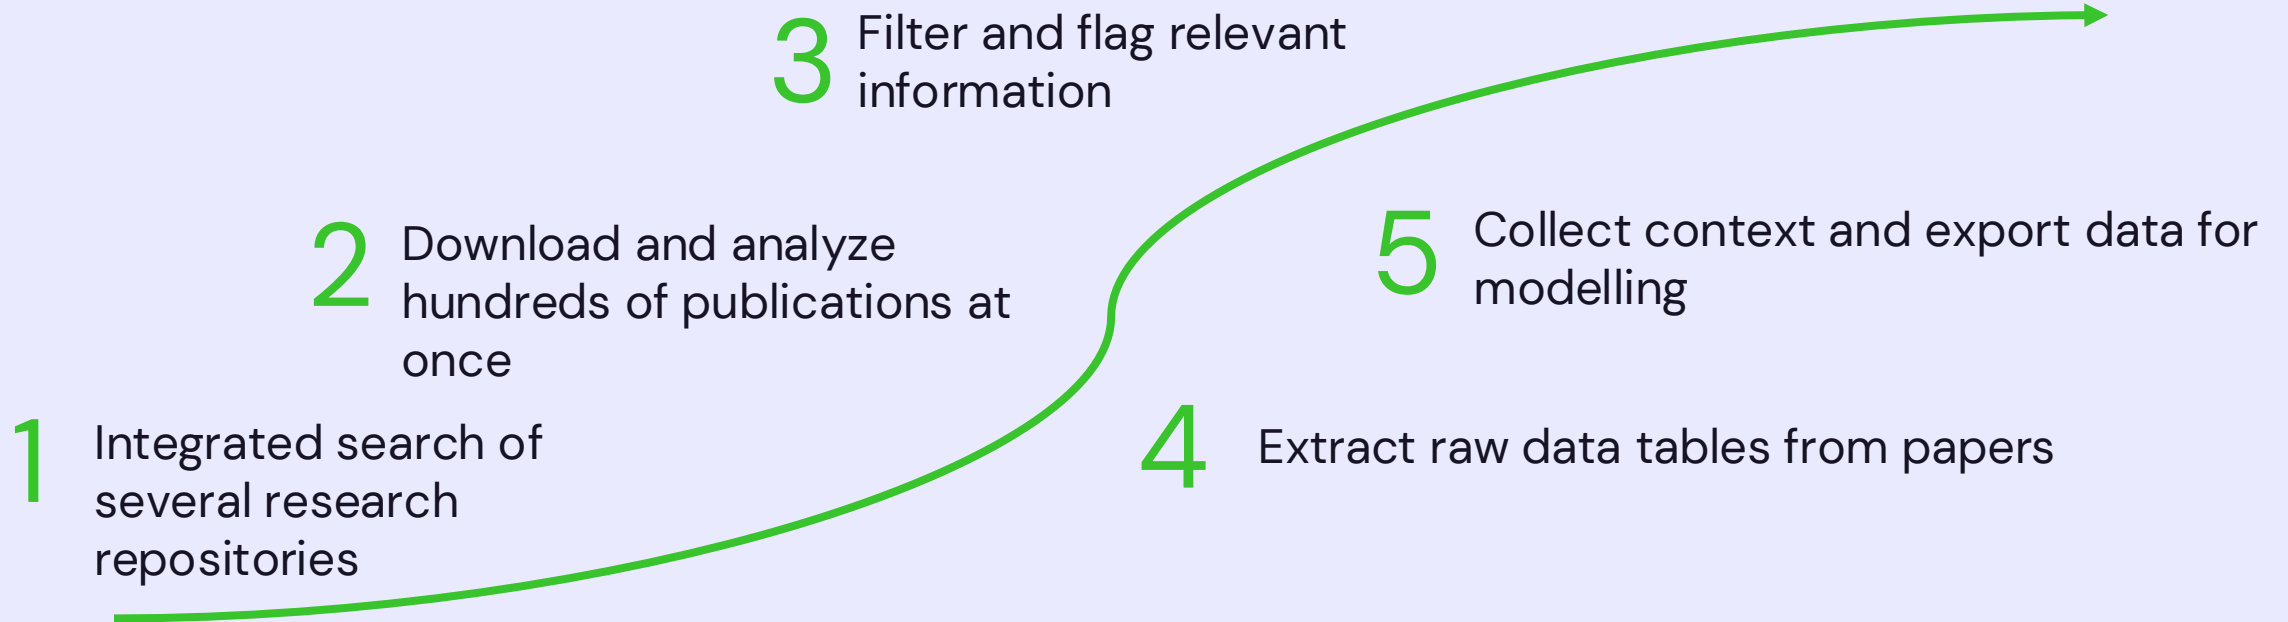

Datahunter's pilot with National Research Council:

- ✓ Helping environmental researchers find relevant lifecycle analysis (LCA) data

Datahunter expands literature coverage and decreases total review time

With Datahunter the NRC Experienced...
