

# TRAINING TO SUIT YOUR ORGANISATION

Choose training that is fully flexible to match your organisation, whether that's attending a class in person, virtually or as a team.

## IN-HOUSE TRAINING

### PREFERRED METHOD FOR GOVERNMENT AND PUBLIC SECTOR ORGANISATIONS

Invite your team to learn new skills while developing strong collaboration and teamwork.

### Cost effective method to train groups of employees for your organisation.

Regardless of the size of your organisation, SAI Global can help design and create bespoke courses for you and your business. Choose from:

- **Off-the-shelf training** - Public course delivered at a location and time of your choice.
- **Customised training** - Work with a dedicated team to help scope, design, develop and deliver a bespoke learning experience.
- **Contextualised training** - Off-the-shelf course with added context to suit your business requirements. Including, incorporating your policies and procedures and, updating case studies and examples to your company experiences.

Discover why in-house training is critical for sustainable business growth.

# TRAINING TO SUIT YOUR ORGANISATION

Choose training that is fully flexible to match your organisation, whether that's attending a class in person, virtually or as a team.

## IN PERSON COURSES

Delivered in up-market classrooms in major cities around Australia.

**Instructor-led training sessions with a dedicated industry expert to conduct the training.**

- Explore a diverse selection of courses covering a wide array of subjects, including Information Security, Environmental Management, Occupational Health and Safety (OHS), Risk Management, Quality Assurance, Sustainability, Leadership, and many more.
- Our facilitators, who are industry leaders, integrate their real-world experience into the training, blending practical application with theoretical content to offer a comprehensive learning experience.
- Our courses offer both nationally and internationally recognised competencies.

## VIRTUAL TRAINING

Join a live course with fellow students from across Australia.

**Take part in training in real-time with expert trainers in a hybrid training course.**

- Delivered virtually, these courses are held live with instructor-led training sessions.
- Join from any location and still have the benefit of a live training session, with a dedicated industry expert.
- Virtual break out rooms keep the sessions interactive and allow for conducting group activities.
- Screen and whiteboard sharing with notes adds clarity. Providing a seamless classroom learning experience.
